

TOPIC: Aluminum Coolant for CNC Machining

98Oils Products	Randocut 619K
Applications	Coolant for steel
Customer /Location	KC. / Rayong, Thailand
Previous Lube/Fluids	Moresco BS33
Materials	Aluminum (ADC12)
Process/Machines	CNC Machining
Customer Requirements	Quality improvement

Solutions:

1. We recommend Randocut 619K for CNC machines that work with Aluminum. Because there are low foam bubbles and good rust protection.

2. Randocut 619K is good lubricity and reduce operating temperature while machining process.

Summary:

-Customer hasn't found problems and is satisfied with our product.

-Randocut 619K is suitable for CNC machines that process Aluminum.
