

Advantages Lubricant Engineering for Industry

GREENEX (Cleaning Process)

Section 1 : General Information

Customer Name : _____ Date : _____

Company Name : _____ Address : _____

Tel : _____ E-mail : _____

Contact Person : _____ Position : _____ Tel : _____

Manufacturing Process : _____

Product : _____ Major Customer : _____

Section 2 : Detail

1. Manufacturing :
2. Part Name :
3. Materials :
4. Competitor Product Name :
5. Generic Name :
6. Price Package :
7. Dilution :
8. Parameter check cleaner in system :
9. Service Provide :
10. Amount of production/month :
11. Amount of washing parts/time :
12. Tank Size :
13. Volume / Time / Day / Month :
14. What is particle, dirt? :
15. Cleaning Method (Spray, Immersion) :
16. Cleaning Process :
17. How long for washing parts? :
18. Temperature in process cleaning (°C) :
19. How many people for washing parts? :
20. How to check cleanliness? :
21. Problem of work :
22. Do you have problem of environment system? :
23. What do you want to improvement? :

Section 3 : Remarks
